Locked Cabinets

Since 1908

XA Series - Locked Cabinets

The XA Series security cabinets have been designed to provide a professional reinforced storage solution for environments where the protection of documents, sensitive materials, and valuable items is essential. Their reinforced steel construction and functional design combine security, storage capacity, and organization within a single reliable and durable system.

Manufactured with a reinforced structure and equipped with certified locking systems, XA cabinets are prepared for professional applications in offices, industrial facilities, healthcare centers, public administrations, educational institutions, and all types of technical environments requiring secure and controlled storage.

Main Features

- Reinforced high-strength steel construction
- Reinforced structural design
- EN 1300 certified locking systems
- Wide-opening doors for easier access
- Adjustable interior shelves
- Professional high-durability finish
- Design intended for intensive professional use

Available Locking Options

- Key lock
- Mechanical lock
- Electronic lock
- Programmable lock
- Biometric systems

Model	External Dimensions (mm)			Internal Dimensions (mm)			Shelves	Volume (l)	Weight (kg)
	Height	Width	Depth	Height	Width	Depth			
XA120	1200	500	400	1094	494	335	2	181	80
XA145	1450	600	425	1344	594	360	2	287	107
XA170	1700	700	450	1594	694	385	3	425	142
